

Anteïs S.A.  
Chemin des Aulx 18  
1228 Plan-les-Ouates  
Geneva / Switzerland

Merz Anteïs SA is a major global player in the field of injectable medical devices derived from the processing of biopolymers. Specializing in the development and manufacture of high-quality biomedical products for aesthetic medicine, Merz Anteïs employs over 200 people at two production sites in the Geneva and Morges regions.

Products manufactured by Merz Anteïs are distributed by Merz Aesthetics, an international company in the field of aesthetic medicine. Every day, over 1,600 Merz Aesthetics employees in 36 countries are committed to restoring and maintaining the beauty of the skin.

Merz Anteïs and Merz Aesthetics belong to the Frankfurt-based Merz Group.

Would you like to contribute to our success? Then join Merz Anteïs!

We are recruiting for our Lonay's site:

## **Risk Management Specialist**

**The following responsibilities await you:**

- Champion risk management during new developments, partnering with product teams.
- Spearhead risk management initiatives throughout the medical device lifecycle.
- Oversee QMS updates pertinent to risk management.
- Champion in NCR and CAPA initiatives.
- Impart risk management training expertise.
- Vigilantly maintain the Risk Management File.
- Offer relentless support for both internal and external audits.

**What we expect from you:**

- Education: Bachelor's/Master's in an engineering/science domain or its equivalent.
- Experience: 5+ years honing expertise in risk management within the realm of medical devices or pharmaceuticals.
- Knowledge: Fluent with standards like ISO14971, ISO13485, FDA Quality System Regulations, IEC 62304, and GMPs.
- Adeptness in orchestrating cross-functional risk management dialogues.
- Robust problem-solving prowess, with a keen focus on NCR/CAPA processes.
- Commanding communication skills in English and French.

**What you can expect from us:**

- **Ongoing training:** Your personal and professional development is key to our success. To this end, you have regular access to specialist training, language courses or personal development sessions.
- **Work-life balance:** Our time is precious; to help you reconcile your work and leisure time, we allow flexible working hours between 6.30am and 8pm, depending on the position. We also give you the opportunity to telework up to 2 days a week if your workstation allows it. Our employees also benefit from generous annual leave arrangements.
- **Benefits:** Your day-to-day social security is important to us. We have set up premium accident insurance cover so that you can be looked after under the best possible conditions throughout Switzerland. We also invest in your retirement: our LPP plans allow you to save more than the legal minimum without any impact on your net income, as the company pays 2/3 of the contributions.
- **Sustainable development:** The Merz Group is investing at every site to achieve carbon neutrality by 2035.

We look forward to receiving your full application!
